L-W To Test Incoming Freshmen On Jan. 20

Grade school pupils who will become freshmen at Lincoln - Way High School next September are slated to take a series of tests Jan. 20.

The testing program, an annual affair, will be conducted at the high school from 8 to 12:30 o'clock. Jonas R. Lashmet, guidance director, is in charge. School buses will pick up the pupils at the grade schools in Arbury Hills, Frankfort, Lincoln Estates, Manhattan and Mokena at approximately 7:30 a.m.

Pupils from parochial schools who intend to go to Lincoln-Way will be picked up in designated areas. Students from St. Jude's in New Lenox will be picked up at their own school. St. Joseph's, Manhattan, students should meet at the public

school for transportation and students from St. Mary's in Mokena are scheduled to pick up from Willowcrest School.

There will not be a repeat date, Mr. Lashmet said, so it is important that all students who will enroll at Lincoln-Way in September take the series of tests. In case of severe weather conditions, the testing program will be rescheduled to Jan. 27.

An interpretation of the results of these tests will be given to the parents in early spring.

The battery will include a test of educational ability, reading achievement, arithmetic achievement and language arts achievement.

The educational ability subtest contains problems of word reasoning, verbal analogies and number reason-

ing. It is designed to measure the student's general intelligence - his ability to do school work.

The Reading Achievement subtest measures the student's ability to understand words in context, to grasp the main idea in a passage, to make inferences and to grasp significant details.

The Arithmetic Achievement subtest measures the student's ability to add, subtract, multiply and divide, using whole numbers, fractions, percentages and decimals. The student's skill in solving simple algebraic equations and in using formulas for perimeter area and volume is also measured.

The Language Arts Achievement subtest measures the student's skills in capitalization, punctuation and grammatical usage.

2 L-W Musicians Tour Europe

Two Lincoln - Way High School students, Judy Kalkbrenner and Arnold Gregory will be among the 300 Illinois high school music students who will fly to France July 1, to appear before a conference of the International Society for Music Education at Dijon.

Those making the trip were selected at auditions last year in each of the six Illinois Music Education Association districts of the state. It was on the basis of these auditions that the two Lincoln-Way students won their positions in the overseas group.

Judy, daughter of Mr. and Mrs. Eugene Kalkbrenner, of Manhattan, will be most remembered for her por-

trayal of Iolanthe in the Gilbert & Sullivan operetta of the same name presented by the L-W chorus last November.

Coming from all sections of the state, from the small towns and the large towns, there will be 90 youngsters in the band, 90 in the orchestra, and 120 singers in the chorus, that make up the 300 musicians.

Both were selected for IMEA District Music Festival participation this year, and together with two other Lincoln-Way students, Marla Fant, of Mokena, and Dana Jones, New Lenox, will take part in the IMEA all-state festival to be held at Peoria Jan. 26 and 27.

LINCOLN-WAY MUSIC students who will represent the school at the all-state festival to be staged by the Illinois Music Education Association at Peoria Jan. 26-27. Left to right they are Arnold Gregory, Marla Fant, Judy Kalkbrenner and Dana Jones. Arnold and Judy will also represent Lincoln-Way in the overseas music group Illinois is sending to Europe in July. Traffic To Roll On I-80

Well ahead of the original schedule which had 1970 as the target date, I-80, the transcontinental east-west expressway, will be opened to travel next Wednesday, Jan. 17, according to an announcement by the department of public works and buildings at Springfield.

The highway had been completed west of Joliet thru Illinois and into Iowa and Colorado and thru the use of tollways and turnpikes thru the eastern states had reached Hazel Crest. But the gap, alluded to as the "Missing Link," between Hazel Crest and the eastern limits of Joliet -- a distance of 29 miles -- held up the project.

I-80, which was planned as a part of the federal defense system to insure flow of material between the east and west coasts is also important from the economic set up, it has been pointed out repeatedly.

The area south of Chicago in Illinois and Indiana is frequently referred to as the "Ruhr Valley of the United States" because of steel mills and the vast industrial complex that it embraces and I-80 passes thru it.

Completion of I-80 is expected to stimulate the industrial growth of the southwest suburbs as well as spur population.

Work on the project was delayed for several years and that it finally got underway is attributed to the pressure applied by organizations and individuals in the "Missing Link" area. Maurice Angland, of Mokena, was the sparkplug of the movement. He organized meetings, he had maps made to highlight the importance of I-80, he prepared petitions, wrote letters and talked I-80 to everyone that he thought could get the program going. It is the belief of those who have been in touch with

the situation that his efforts helped to get the defense department to move. Not wanting to be caught in an Asian conflict on its hands and the movement of supplies and material to the west coast slowed by inadequate highways in late 1966 the word came thru from Washington to get work moving on I-80, it was reported from reliable sources, and to have it completed thru Illinois by November, 1967.

Bad weather last fall delayed the project and so the November deadline was missed by a couple of months. The paving was finished but such items as fencing, erecting guard rails and signs couldn't be finished in time.

There is to be a ribbon-cutting ceremony at Joliet to mark the opening of the highway in which some of the state brass is to participate. The affair is to be held at the Chicago-Ottawa St. interchange. Officials of the villages in the "Missing Link" section are to be invited to attend.

This group is part of a nation - wide organization formed as a joke by two friends in 1938. The name, S.P.E.B.S.Q.S.A., was intended as a spoof on multi-initialed government agencies. Now numbering over 30,000, the society boasts 700 chapters in this country and Canada and each year holds a competition for international champion.

Tuesday's program will include, in addition to the chorus, a quartet, The Minor Chords. All profits go to Logopedics, a school in Kansas City for children with speech problems due to physical disabilities.

This popular all-male group sings strictly American music and promises a lively and entertaining evening for all. There will be no charge for admission, and the meeting will begin promptly at 8:00 p.m. at the Orland Park school.

Assets Show Gain

Assets of Lincoln-Way Savings and Loan Association as of Dec. 31, 1967 total \$6,859,396.00, up 16% from the \$5,955,503 reported a year ago, the association's annual report revealed today.

Don A. Nepote, Executive Vice President, noted that compared to the 1966 gain in savings 1967 had been an excellent savings year for the association.

In looking ahead to 1968, the annual report indicated that there was a possibility that next year might see another round of tight money. This would, of course, present challenges for the savings and loan business and the real estate and housing industry. Mr. Nepote said:

"The savings and loan business profited very much from the lessons it learned during the tight money year of 1966. I predict that even with a return to tight money next year that the business will be able to weather whatever economic storm might come along.

"From the way things look now, I think that savings inflows will continue to be adequate to meet the demands for mortgages in this area. There is already some evidence that the demand for both single-family homes and new apartments is picking up. We anticipate that mortgage interest rates will be somewhat higher than those prevailing during 1967."

Interior Design Corner... ON SALES AND SUCH . . .

QUESTION: To what degree does a manufacturer of furniture place his merchandise in a store on floor plan or consignment?

ANSWER: None. Unlike automobiles and appliances, furniture is purchased by a furniture dealer and paid for within billing dates. The store buyer is responsible for purchasing items he believes acceptable to his stores customers. It is also his direct responsibility to purchase the very best merchandise available within his stores particular price bracket. Herein lies the real reason for such style and price variations from store to store. The displays and merchandising procedures tend to reflect the personal taste and ability of each store's buyer.

QUESTION: How legitimate are furniture sales?

ANSWER: Very. The purpose of a sale is twofold. Primarily, it is designed to stimulate additional business above and beyond what would normally occur during a like period. Secondly, it is an excellent way to rid the inventory of white elephants and those odds and ends that continuously occur. Let me state, however, that the legitimacy of sale pricing depends on the store's integrity and reputation.

QUESTION: During these sale periods, is it wise to purchase floor samples?

ANSWER: That's a difficult question and I would answer yes with reservations. If we are speaking of a store such as our own or a firm like Smythe's or Field's I would again say yes. The most important factor is the general cleanliness of the establishment. If the floor sample is clean and relatively dust free and obviously received good care and represents a savings, again I would answer yes. However, if dust is apparent on tables and if the floors are dusty or ill kept I would heartily answer no. And for a very good common-sense reason. If the general upkeep of the store is untidy and dirty, one can bet that the same dust has gathered on the upholstery. Over a period of time, dust will cause upholstery to show wear much more readily than normal use.

QUESTION: How can one tell if he is purchasing from a reputable concern?

ANSWER: Your question includes the key word to my answer. Concern. The store's concern for cleanliness and order indicates the respect and value it places on its merchandise. For salesmen who know their products and are honest in their evaluations of that product. Beware of the fast-talking sharpie who insists that you must buy now. Beware of the dimly lit establishment that has a general appearance of disorder and the dirty, ill-kept stores we discussed above. Most importantly, check with neighbors and friends. A firm's general attitude toward customer complaints and service will soon become public knowledge.

SPECIAL NOTE: I almost forgot (Ha Ha). Our January Clearance Sale is now in progress. Our floor samples are CLEEEAN and the savings are worth telling your friends and relatives about.

Orland Still Hoping To Get Interceptor Sewers

The proposed southeast sewer expansion program at Orland Park is feasible, according to engineers who have studied the plan and the improvement could be financed thru a combination of arrangements, Village Attorney Raymond Pieper told the Orland Park Village Board at its regular meeting Monday night.

The village could use revenue bonds and special assessment bonds, Pieper said or could employ some of the money in the surplus funds of the water and sewer department on the project.

The southeast program would run a sanitary sewer line from the west end of 151st St. to U.S. 45 thence north to 147th St., to Ravinia, and north to the interceptors.

And that word, "intercep-

tors," causes village officials to instinctively cross their fingers and hope for the best. The Chicago Sanitary District had informed the village of Orland Park that it was drawing plans to bring interceptor sewers to that municipality. Another branch line of interceptors was to connect Matteson with the sanitary district facilities. A hospital and an industrial park are scheduled for Matteson. Orland Park is also planning for more industries and a rising population but now it doesn't know whether it will get the interceptors.

It was reported at Chicago that both Matteson and Orland Park had lost out on the sewer improvement. Orland Park Building Inspector George D. Brown told the board that Trustee Jo-

seph Henely (Henely was unable to attend Monday's meeting) had been talking with a friend who is a member of the board of trustees of the Chicago Sanitary District who told him that he believed Orland Park would get its interceptors because of pressure that was being put on by the Forest Preserve District to extend the interceptors southwest.

According to Brown the Republican members of the sanitary district board wanted the northwest suburbs served and apparently the district does not have funds to build interceptors to the northwest and to the southwest.

The only thing the Orland Park board can do is hope the forest preserve has enough clout to keep the interceptors coming this way.

Sandburg Will Test Prospective Frosh

Preliminary figures show 524 eighth graders, nearly 100 more than last year, will be given entrance tests by the Carl Sandburg High School guidance department from Jan. 15 to 18.

Last year, 426 prospective Sandburg freshmen were tested, James Adcock, director of guidance said.

Testing will be at four major feeder grade schools with smaller schools sending their eighth graders to the testing place.

On Monday, Jan. 15, at 8:30 a.m. about 120 youngsters will be tested at St. Michaels elementary school in Orland Park. St. George of Tinley Park and St. Damien of Country Club Hills will also participate.

Tuesday's test is at Palos West in Palos Park. St. Alex-

ander of Palos Heights and Palos Evangelical Lutheran of Palos Heights will also be tested. Tests begin at 9 and last through the school day.

On Wednesday, Jan. 17, Orland Park Elementary School is the test site. Doctor School in Orland Park will send eighth graders to Orland.

Thursday, Jan. 18, testing begins at 8:30 at Kirby School in Tinley Park. Other schools there will be Trinity Lutheran of Tinley Park and Central Elementary School of Tinley Park.

Students will be given the SRA high school placement test which measures educational ability, reading and language arts skills, modern mathematics, and science methods. The Sandburg science department test will also be given.

Open Campaign For Water System To Serve N.Lenox

Some 20 New Lenox residents braved sub-zero temperatures last Thursday night to discuss the proposed central water system program for that village.

These men, who will serve as block captains, will explain the situation to their neighbors and ask their support of the program. The campaign for such an improvement is now on.

New Lenox is plump in the middle of an area that is growing rapidly but is still lacking a central water supply. It is everyone for himself as far as having water for household or commercial use, it has been pointed out.

The village board is seeking public support for a water system that will serve the entire village and would finance the improvement thru revenue bonds. Revenue bonds are retired from the revenue derived from the service rendered.

The water rates would be governed by the number of persons using the system. The more customers the cheaper the rate, it was pointed out by Mayor Joseph Hartung, who presided at the briefing session for the block captains in the Village Hall.

Members of the board of trustees were also present. The board and Village Engineer Robert Hamilton were there to answer any questions that the block captains might have.

They also were furnished with material covering the various phases of the program, including the copy of a letter from Evans Drotts, former village trustee and head of the Frick Insurance Agency. Drotts stated that New Lenox now is rated for fire insurance purposes as Class 9. Major qualification for a Class 8 rating, he said, is a central water system. This does not guarantee that a townrating will be reclassified, he wrote, but a central water system is the biggest requirement for such a step.

The present fire insurance rate, he added, is .218 on a building and .180 on the contents. Class 8 rating on a building is .131 and is .108 on the contents. It figures out, he said, that the Class 8 rating would save

the owner of a \$15,000 MIC #1 policy \$10 a year.

A digest of the information given the men who will canvass the neighborhoods is reproduced here. The canvassers will report to the board Jan. 16 as to their progress.

The bond houses require a nominal fee be paid by each resident signing up for water service, a sort of earnest money, and in the case of New Lenox the sum will be \$10.

A summary of the proposal:

WHY CITY WATER

1. To assure good, pure water and save money.

A. There is no question that very few individual wells, are checked yearly for contamination, and there is little doubt that many wells are at present contaminated, and that further contamination could develop.

B. Cost of individual water system. (1) Life of a pump 7 to 10 years-cost of a pump \$400. (2) Life of a water softener 10 years-cost of a softener approximately \$400. (3) Cost of new wells \$1,000 plus. (4) Soft water service or the material to soften ones own is \$2.00 to \$12 per month. (5) Electricity to operate.

C. The cost of a city water system will be increased considerably if put off to some future date. After city water system is in effect any subdivider or developer will install own water main, etc., at no cost to the village. Any construction done before we have city water, the cost will be put on the village.

II. To encourage business and industry.

A. Lower our taxes.

B. All new business and industry would help pay for water system (a neighboring village has a small industry that pays \$4,000 per month water bill. (They spent about \$4,000 to attract them.)

C. Expected business growth from Route 80 and Route 30, such as motels, restaurants, truck stops, etc.

D. Future growth evaluation to far exceed the present evaluation.

E. Future shopping centers.

F. We have had many inquiries from industry but

they are not interested when they find out there is no water.

G. The water system will help justify the present evaluation on industrial zoned property.

III. To improve fire protection and reduce fire insurance.

IV. To plan and prepare for the projected growth of the village.

A. Present population approximately 2,500.

B. Present township population 7,410.

C. Projected growth by Joliet Area Transportation Study New Lenox Township 32,000.

D. Bulk of the water system will be paid by new business, industry, and projected growth. IF we have a water system available for them.

V. The present plan for the water system.

A. The present plan for a water system includes soft water service to everyone in New Lenox where feasible. The areas now covered by water system are not included at the present time.

B. The system will be financed by revenue bonds.

C. The cost of the new system will be approx. \$475,000.

D. The minimum amount of users the bonding company will expect is 282. The more users over this amount the lower the rate.

E. The cost per user will be from an approximate maximum of \$8 to a minimum of \$5 per month, according to the amount of users that avail themselves of the system at the start.

F. The bonding company requires a \$10 deposit prior to letting of the construction contract.

G. Tap-on fees after the initial sign up will be at least \$150.

H. Water meters will be furnished by the village. A deposit will be required similar to the utility companies. This deposit to be refunded when service is discontinued.

Would Limit Parking On Part Of Front St.

The Mokena Village board which has plans for the repaving of Front St. between Division St. and School House Rd., will improve its use thru banning parking on the north side of the street.

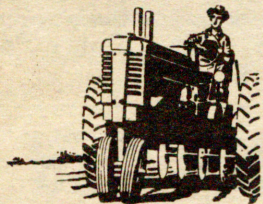

The street is too narrow to permit easy passage of two cars if vehicles are parked on both sides, it was pointed out.

The village board voted to write postal officials at Washington and ask that the boxes at the Mokena office be made available to the public for an hour longer a day. The board acted when it was represented to it that commuters who do not get

home until 6 p.m. are unable to get their mail until a day off gives them the opportunity to go to the post office.

One of the post office brass at Washington recently wrote that the post office lobby could not be kept open an hour longer because of the danger of vandalism. This charge was resented by village officials who say police protection is more than adequate to preserve the post office an hour longer a day. The board is not asking that any of the employees of the post office work longer -- just that the lobby be kept open an hour longer.

Area Scout Receives Gift Of Uniform From Council

MRS. VIRGINIA SASS
Telephone: 485-6424
Robert Erdman scoutmaster of Homer school club 63, shared honors last week with a new member of his troop, twelve-year-old Jeffrey Underwood, son of Mr. and Mrs. William Underwood of Farrell Road.

Rainbow council boy scouts of America had been searching for the boy who would bring the council membership to 7,000, a record high.

Jeff received a brand new boy scout uniform, provided by rainbow council "round-

up" chairman, Joe Stengele of Joliet in honor of the achievement of total boy membership of 7,000. Erdman received a new scout's red wool jacket in recognition of the important role played by the unit leader in bringing the scouting program to boys.

In making the presentation, Stengele told Jeff that his membership not only helped achieve the desired 7,000 rainbow council membership, but also brought the thunderbird district within a few members of its 3,800 goal.

Stengele also pointed out that the boy scouts of America is the world's largest volunteer youth organization and predicted that Jeff would be an active member when the Rainbow Council celebrated a membership total of 8,000.

The rainbow council, boy scouts of America, is a member of the Will, Grundy and Kankakee United Crusades and Chests.

Mr. and Mrs. Fletcher Binion and family and Mr. and Mrs. Clare Berg were dinner guests Tuesday eve-

ning Jan. 2 in the home of Mr. and Mrs. Lester Cammack and family.

Mrs. Charles Elliott, Sr., Mrs. Charles Elliott, Jr., and Mrs. Charles Ingram and daughter Alyce were guests at a bridal shower in honor of Mrs. Sherry Carbray at the home of Mrs. Robert Glaum in Park Forest Jan. 6.

Mrs. Francis Nelson underwent surgery Jan. 3, in St. James Hospital in Chicago Heights.

The Marley Missionary Society will meet at 1:30 p.m. on Jan. 17 at the Marley Community Church. The hostesses will be Mrs. Victor Zaloudek, Mrs. Arthur

Lauffer and Mrs. Loren Sass. The program will be the annual installation of officers. Devotions will be given by Mrs. Curt Buck.

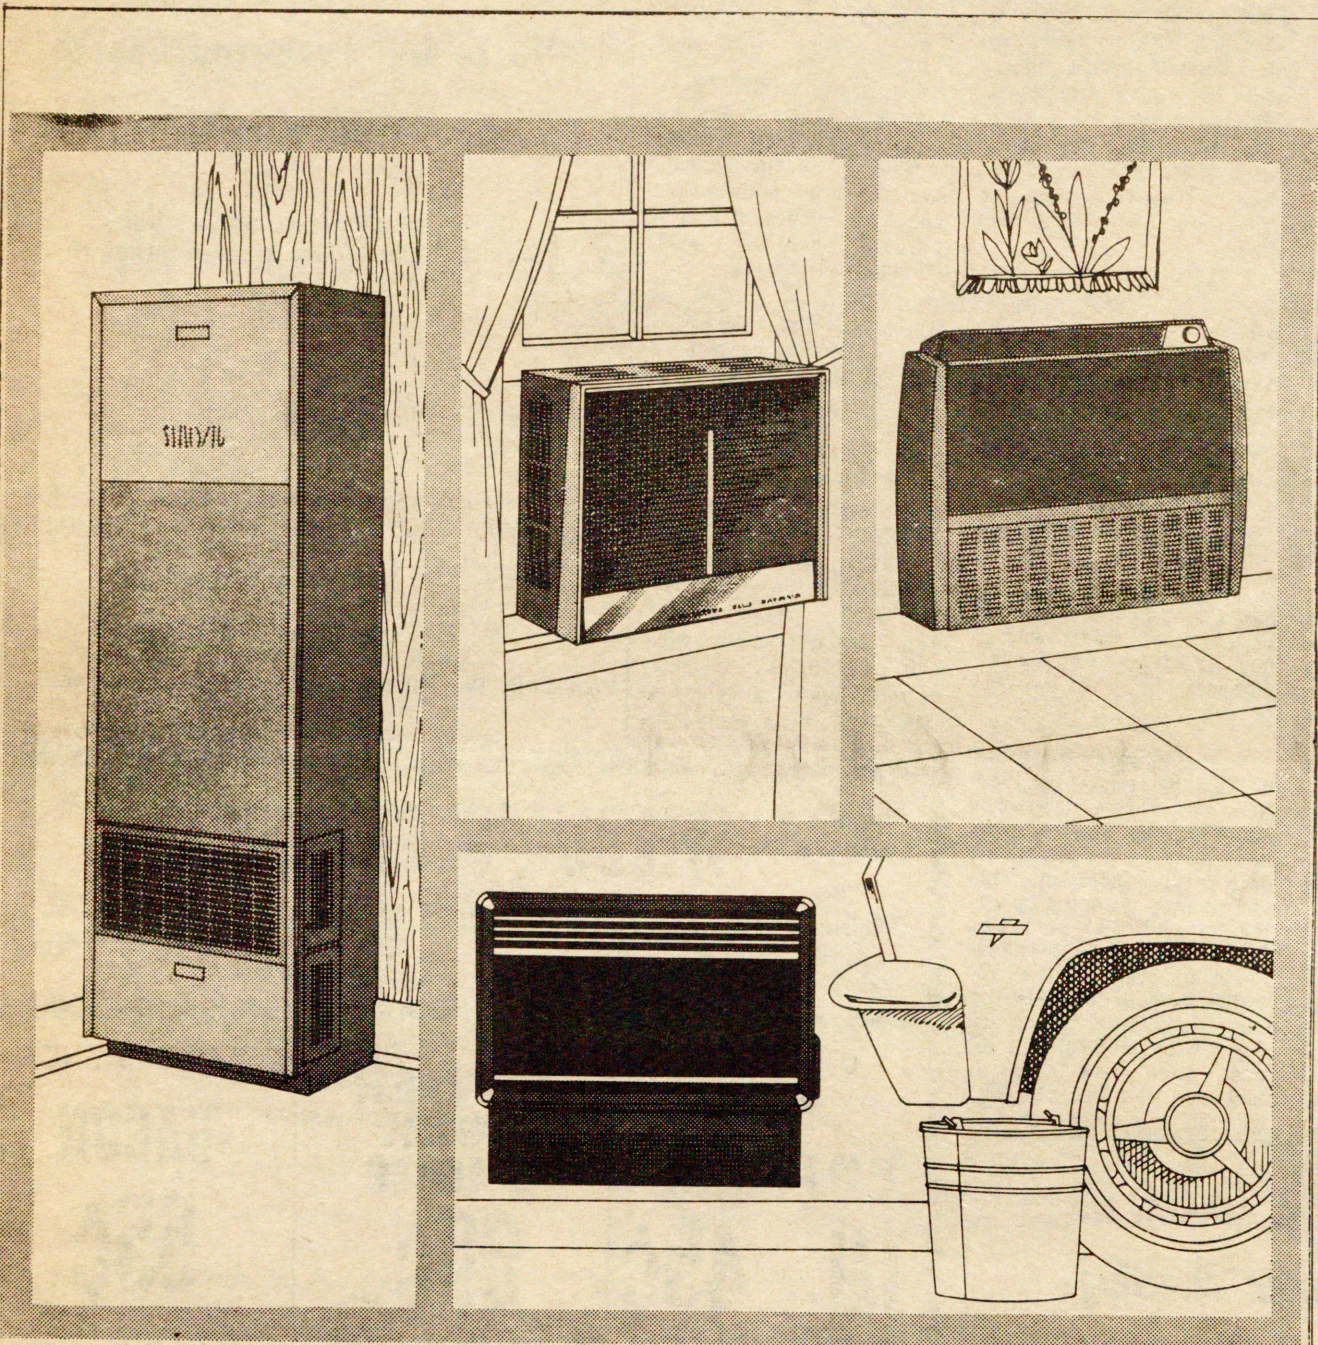

Sendout Record

A record natural gas sendout was set by Northern Illinois Gas Company during the New Year holiday, as thermometers in the company's service territory recorded sub-zero temperatures.

NI - Gas, which serves 975,000 customers -- including 800,000 heating customers -- in northern and western Illinois, sent out 2 billion cubic feet of natural gas from noon on December 31 to noon January 1. The previous sendout record was

set January 17, 1967. On that date, NI-Gas distributed 1.96 billion cubic feet to its customers.

Nearly half of the 2 billion record amount came from NI-Gas' underground storage fields, according to Harold E. Schwalm, manager of gas supply. Schwalm added that the sendout would have been substantially more had the cold wave not occurred on a holiday weekend when most industrial operations were closed down.

Heat that added room or garage-- with a GAS ROOM HEATER.

Gas room heaters are just the ticket for hard-to-heat areas like add-on rooms, closed-in porches, breezeways, recreation and attic rooms. Ideal in garages, too--keep your car ready to go when the weather says "No"; make a comfortable work area for hobbies and household projects. Gas room heaters make sense...

Because they're easily installed on any outside wall. No chimney is needed; sealed combustion chamber vents directly outdoors.

Because they provide carefree, dependable warmth--automatically.

Because cost of operation is far less than other types of room heaters.

Because they're handsomely styled to complement any room decor.

Because they're available in sizes to meet any need--feature rugged construction, lasting performance.

We invite your inquiry on such prestige makes as Dyna Vent, Peerless, Siegler, Temco, Warm Morning and our **INSTALLATION ALLOWANCE OFFER**, plus easy payment terms.

Act Now! Offer is for a limited time only. Phone our local listing for details.

Check your local heating contractor for his gas room heater values.

Open Letter from the HIRSCHS'

Dear friends,

An acquaintance of mine recently said, "I just can't seem to bring myself to make a personal call of sympathy when my friends are in sorrow. I never seem to know what to say."

We know that it isn't necessary to say anything. The "gift" of your presence speaks for itself. Friends mean more than you realize to a family during a time of bereavement. The fact that you share in their grief is an act of compassion.

Respectfully,

Levin Hirsch

Lenora Bormet R.A. Baker Wed

Lenora Jean Bormet became the bride of Ronald Allen Baker at 6 p.m., Nov. 18 in Hope Lutheran Church, Park Forest, Ill.

Rev. R.H. Bekemeier officiated at the nuptial service between the daughter of Mr. and Mrs. Elmer Bormet, 689 Charlotte Ct., New Lenox, and the son of Mr. and Mrs. Ralph Baker, 387 E. Exchange St., Crete, Ill.

Candelabra, palm, and baskets of white gladioli and pompons decorated the altar of the church.

The bride was attired in a floor-length gown of ivory silk-satin re-embroidered in Alencon lace. The bodice was designed with a shell neckline and elbow length sleeves. Her veil of imported silk illusion was held in place by a crown of re-embroidered Alencon lace, and she carried a bouquet of white garnet roses.

Maid of honor was Kathryn Borgeaschatz. She wore a floor length gown featuring a royal blue velvet bodice and a brocaded skirt in tones of sapphire blue and green on gold. Her headpiece was in a royal hue, and she carried a cascade of chrysanthemums and pompons.

Dressed identically with the maid of honor were Bonnie Baker, sister of the bridegroom, and Cherie Christopher, bridesmaids.

Flower girls were Karen Bormet and Leann Nice, who were attired in floor-length satin gowns and carried baskets of rose petals.

Dale Peters attended Mr. Baker as best man, and ushers were James Batterman, Douglas Lauer, Marvin Bormet, brother of the bride, and Bruce Boettger.

A reception was held following the ceremony at Veteran's Memorial Hall, Frankfort.

Mrs. Bormet, mother of the bride, selected a gold and ivory brocaded dress and coat ensemble with matching accessories, while the bridegroom's mother, Mrs. Baker, donned a two-piece silk shantung costume in an aqua hue. Both mothers wore corsages of yellow roses.

Following a wedding to San Juan, Puerto Rico, the couple is residing at East Richton Rd., Crete.

Cardinal Defies Cold-- A Favorite Winter Bird

In our northern states there are many birds that remain all winter. Some are year - round residents; others have come from their summer homes farther north; a few are strays that failed to migrate with the others of their kind. Farther south you would find more variety but people in the Chicago area, interested in winter birds, are particularly fortunate. Surrounding the city are 50,000 acres of forest preserves offering a wide choice of food and cover. About 20 miles west, the Morton Arboretum, with its plantations of coniferous trees and wealth of food-producing shrubs, attracts more kinds of winter birds, perhaps, than most other places. In many of the older suburbs, because of their trees and shrubbery, and even in some of the larger parks and cemeteries within Chicago itself, several kinds may be seen and attracted to feeding stations.

Most spectacular of our non-migratory birds is the Cardinal or Cardinal Grosbeak, the state bird of Illinois, Indiana, Kentucky, North Carolina and Ohio. The male is vermilion-red all over, except for a black face and throat. Even his heavy beak is orange-red. Almost as large as a robin, he has a long tail and a jaunty crest which bristles when he is alarmed. His wife also has a red beak but her head and body are olive-gray above, lighter gray below, with tinges of dull red on her crest, wings, tail, and sometimes the breast. Young males are colored much like the female, but darker.

In early winter the silence of the woodlands is broken by the tapping of the downy and the hairy woodpeckers searching for grubs, occasionally the cheerful "Chicka-dee-dee-dee" of the black-capped chickadee or the nasal "Yank-yank" of a nuthatch, and -- when they spy you -- the loud "Thief, thief, thief!" of the blue-jays and the cawing of the crows. But, in January, some of the male cardinals start to sing and we hear those ringing whistles: "Wet-year, wet-year, weet, weet, weet, weet", or "Whurty, whurty, whurty". If imitated, they often answer, as they do a rival male. About this time, too, the tufted titmouse is heard whist-

DOCTOR SCHOOL

The meeting of the directors of Doctor School District 137 has been changed from Jan. 15 to Jan. 22, it was announced this week. The meeting Jan. 22, will be at 8 p.m. at the Doctor School, 159th St., near Wolf Rd.

ling his clear call: "Peter, peter, peter". Later in the year, the feamle cardinals also sing -- almost as well as the males but more softly.

Cardinals seem to prefer thickets and forest edges. Their food is chiefly wild fruits, seeds, and a variety of insects including many serious pests. They are par-

ticularly fond of sunflower, melon, squash and pumpkin seeds. It is interesting to watch them squatting on a feed tray or the snow-covered ground, methodically crushing sunflower seeds in their powerful bills, swallowing the meat, and spitting out the hulls. Before daylight every winter morning, a few cardinals and several jun-

coes are waiting at our feeding station. The redbirds fly a short distance away, uttering metallic "clinks", when we come to replenish the tray and scatter seeds and grain on the ground. Soon after, there may be a dozen or more of them busily eating seeds. There is always an old male that bosses all the other cardinals but pays

no attention to the juncos because they prefer small grain. Toward spring, however, he frequently begins to pass seeds to his mate.

Birds have personalities. It is fascinating to see how alert they are, to learn the traits of the different kinds, to compare the seed eaters with the insect eaters, and to detect the differences be-

tween individuals of the same kind. Meanwhile, you learn the details of their plumage, shape, bill, feet and tail. A feeding station visible from the window of your kitchen or breakfast room -- even on the windowsill itself -- is ideal for this pastime.

If you want to see 'em: feed 'em.

Social Sec. Official Explains Law Changes

The Social Security Law has been changed. About 24,000 beneficiaries in the Joliet area will receive a 13% increase in social security payments. This increase is effective for February 1968 and will be received with the check paid in the first week of March.

For example, a \$44 benefit will go to \$55 and a \$134.90 check will be increased to \$152.50. You do not need to contact the Joliet Social Security Office to get this increase, said Larry A. Van Meter, manager of the Joliet Social Security District.

The new law also means

that those still working will pay on \$7,800 of their wages in 1968 or of their self-employment income for 1968. This increase in the tax base will give higher benefits when you reach age 65.

There has also been an important change in the retirement test. In 1968 you

may earn \$1,680 in the calendar year and still receive all of your Social Security checks.

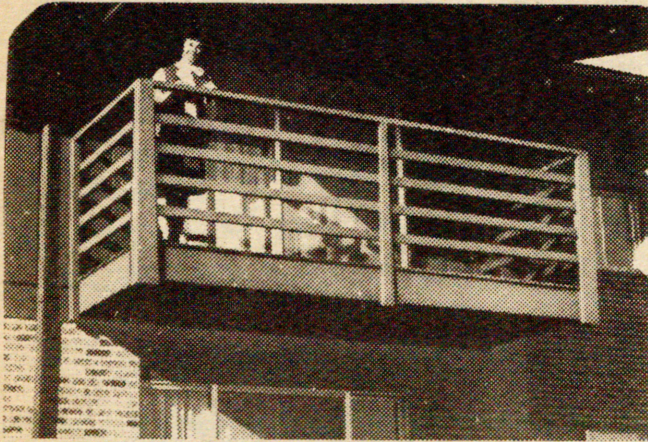

Effective February 1968, it is easier for children under age 22 to receive payments on their mother's social security number even if she had not recently worked

under social security. For the same reason it will be easier for dependent husbands and widowers to receive payments on their wife's record.

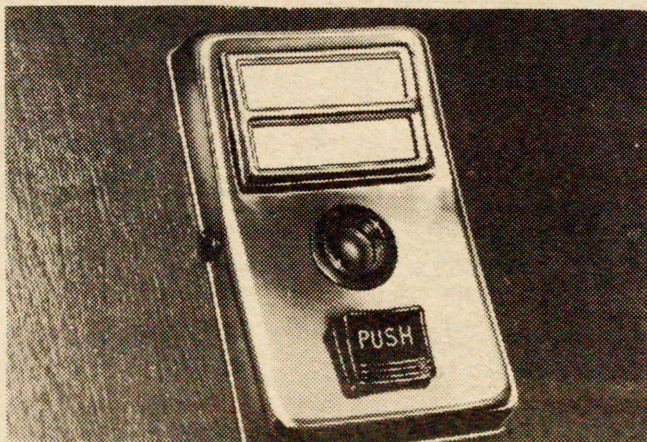

The length of marriage requirement for mothers and widows has been relaxed from one year to nine months, or to three months

if the worker's death was accidental or in the line of active military duty.

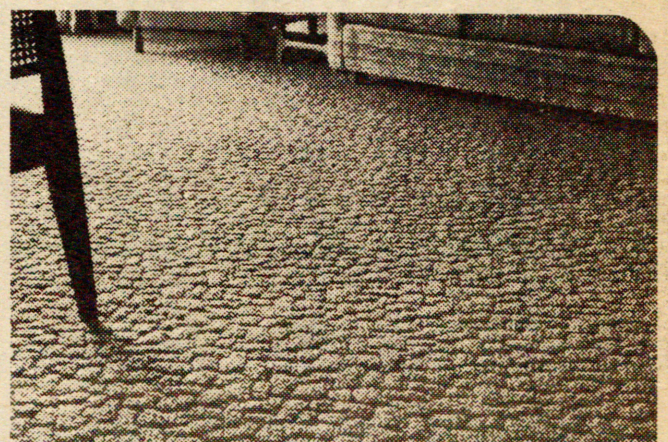

Also the amount of work required for a worker who becomes disabled before age 31 has been changed. There are now cash payments for disabled widows, widowers, and surviving divorced wives payable at age 50.

DOUBLE SIZE BATHROOM CABINET

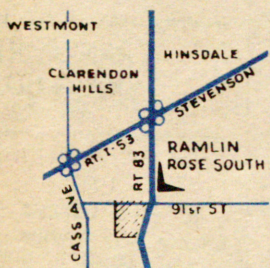

INDIVIDUALLY CONTROLLED HEAT, AIR-CONDITIONING

DOUBLE SINK WITH GARBAGE DISPOSAL

RANCH PLANK CABINETS

Here are only 8 of the many better-living reasons why your garden or town house apartment (1, 2, or 3 bedrooms) at Ramlin Rose South will be the new, refreshing, happiest way to live. And there are many, many other features and conveniences of this beautiful planned community that will add to your fullest enjoyment of living. The rooms are honestly spacious; a TV antenna jack has been installed; your apartment has been wired for additional telephone outlets; and there's more cabinet space in the kitchen than you ever dreamed of. There's a suspended light fixture in front of a paneled wall. Outside, grassy malls, sidewalks,

broad streets, and lots of parking space. Soon, you will have a community recreation center, 2 swimming pools, tennis courts, and a private lake. Later, a shopping center. Transportation, schools, churches and shopping facilities are excellent.

It's easy to get here. Just take the Stevenson Expressway (I-55) to Route 83, then south one mile. We are in the Clarendon Hills-Westmont Area. Models are open daily from 10 until 7. Or telephone: 323-3918.

Rentals begin at \$155
